NAYAB MUBASHAR

Full Stack Developer

anayasaad64@gmail.com | +92 347 4927950 | Gulshan - Ravi, Lahore, Pakistan
Portfolio | GitHub | LinkedIn

Professional Profile

Full Stack Developer focused on building modern, responsive web applications from polished user interfaces to the services behind them. I work with React-based frontends and REST API integrations, and am growing across backend development, databases, authentication, and deployment. I enjoy creating reusable components, solving practical problems, and continuing to learn new technologies.

Technical Expertise

Languages & Frameworks
JavaScript | TypeScript | C++ | Python | React | Next.js | Angular

Backend & Databases
Node.js | Express.js | Prisma ORM | PostgreSQL | MongoDB | SQL

Tools & Design
Tailwind CSS | REST APIs | Figma | Git & GitHub | Firebase

Professional Experience

Frontend Developer (Remote Intern)
Software Tester / Frontend Intern - Remote, Lahore

- Developed frontend UI using React.js, JavaScript, HTML, and CSS.
- Converted UI screens into responsive layouts using Flexbox and Grid; fixed UI bugs and improved cross-browser and mobile responsiveness.
- Integrated user interfaces with REST APIs and handled dynamic rendering with React hooks.
- Used Git and GitHub for version control, task updates, and collaboration.

Frontend Software Engineer (Intern)
TECH BRUNCH PVT LTD - Lahore | 2024 - 2025

- Developed and maintained modern React.js UI modules with reusable components.
- Implemented clean interfaces using Bootstrap and modern CSS practices; worked with designers and backend teams to deliver user-friendly interfaces.
- Improved performance by optimizing React component rendering and resolved UI issues using browser developer tools and React debugging.

Professional Experience

Software Engineer (QA / Testing)
NEXT NODE | 2022 - 2023

- Designed and executed manual testing for web applications; created test cases, documented bugs, and coordinated with developers on fixes.
- Performed functional and UI testing to validate features and responsiveness, and assisted in improving testing workflows and product quality.

Selected Projects

Netflix Clone - React.js

- Built a responsive Netflix-style interface using React.js, CSS, and movie data integration.
- Created reusable Cards, Navbar, Banner, and Categories components; implemented routing and dynamic rendering with React hooks.

Tech: React.js, CSS, movie data integration

YouTube Clone - React.js

- Developed a responsive YouTube-style interface and integrated video data using the YouTube API / RapidAPI.
- Implemented video listings, search, a video details page, channel-style UI, navigation, and reusable components.

Tech: React.js, YouTube API / RapidAPI, React Router DOM

Portfolio Website - React.js

- Built a personal portfolio with About, Skills, Projects, and Contact sections using mobile-first styling and reusable components.
- Added smooth scrolling and refined the interface and performance.

Tech: React.js, responsive CSS

Education

MASTER OF COMPUTER SCIENCE (MCS)	2017 - 2021
Bachelor of Computer Science (BCS)	2015 - 2017

Certifications & Learning

Full Stack Development Internship Devline Solutions	2026
Generative AI Application Developer ULEFUSA & iCode Guru	Mar 2025
Web Development Virtual Internship Digital Empowerment Network	Aug 2024
SQL - Basic & Advanced HackerRank	2023
Computer Application & Office Profession	

Practical knowledge of programming languages and development tools; applied problem-solving and analytical skills to troubleshoot and optimize codebases.

Strengths

Organization and time management | Communication and collaboration | Independent and team work | Attention to detail | Problem-solving and critical thinking | Adaptability and quick learning
Tools: Jira, Asana, Slack
